Vehicle: Mercedes Benz W204

Subject: Reassembling ESL (Electronic Steering Lock) & EIS (Electronic Ignition Switch)

Special attention is required to the fitting process of the W204 ESL and EIS after the ESL has been re-manufactured.

Your remanufactured unit is supplied in the Unlock (pin retracted) position for ease of installation

The ESL is very sensitive to the sequence of Lock/unlock commands.

1. First reinstall ESL (Electronic Steering Lock) to steering column – BUT DO NOT CONNECT 4 Pin CONNECTOR
2. Next reinstall EIS (Electronic Ignition Switch)
3. Connect wiring to EIS (Electronic Ignition Switch) DO NOT CONNECT ESL wiring
4. Connect Battery
5. Insert good working ignition switch. You do not need to turn it to ignition on position.
6. Connect wiring to ESL (Electronic Steering Lock)
7. Remove Key from EIS, and you will hear ESL motor and steering wheel will lock
8. Re-insert Key, you will hear ESL motor and steering wheel will unlock
